EXPERIENCE:

FIELD SAFE SOLUTIONS / JUNIOR DEVELOPER

June 2021 - January 2022

- Developed features for the application and made improvements to existing features utilizing Laravel, PHP, JavaScript, jQuery, HTML, CSS and MySQL.
- Debugged and troubleshooted production bugs, provided code reviews, pair-programmed with Sr. Developers and performed all duties expected of a full-stack Jr. Developer in order to deliver good quality code and efficient solutions.
- Participated in agile development and scrum processes, including estimating story point effort, backlog refinement and sprint planning rituals.
- Helped with documentation and the creation of reusable code snippets to enhance development efficiency.
- Collaborated with other developers in deciding which technical solutions to implement in order to fulfill client needs.
- Coached new Junior Developers in coding practices and provided mentoring and support.

EXPERIENCE - CONTINUED:

LIGHTHOUSE LABS / APPRENTICE MENTOR (Three Month Contract)

January 2021 - April 2021

- Helping individual students or groups of students as they work through coding assignments and homework material.
- Remote assisting any remote students and alumni using a combination of chat, video and screenshare.
- Keeping up to date with correspondence about student progress, and assignments / exercises students work through, in order to stay informed.

SUPERIOR PROPANE / DELIVERY COORDINATOR / SERVICE COORDINATOR

April 2016 - May 2020

- Coordinated propane delivery across Canada, servicing residential, oilfield, agricultural and commercial customers.
- Forecasted delivery needs according to application, weather and digital sensors and generated route plans accordingly.
- Scheduled installation and repair projects being the main liaison for service technicians, contractors and customers.
- Analyse day-to-day key performance indicators, investigate discrepancies and promote continuous improvement both to scheduling and driver performance standards.

CANADA CARTAGE SYSTEMS / DELIVERY SERVICE COORDINATOR

September 2013 – April 2016

- Supervised and dispatched a delivery fleet of 40 unionized drivers and third-party contractors across British Columbia.
- Performed driver performance analysis by consulting with clients, reviewing manifests, analyzing financial metrics, and GPS data leading to improved delivery times and profits.

TALMOLDER INC / ASSISTANT PRODUCTION MANAGER

February 2012 - August 2013

- Supervised a manufacturing staff of 60+ members consisting of machine operators, shippers and receivers, parts finishers, maintenance personnel and a production accountant.
- Established the production schedule for product orders as well as tracked worker performance, and performed quality analysis and control ensuring timely delivery and customer satisfaction.

VEIGA AGENCY INC / COURT REPORTER (Part-time)

January 2006 - February 2012

- Monitored and recorded all that transpires within a courtroom, ensuring high quality transcripts are available for the use of judges and lawyers.
- Set-up recording equipment and trained new employees on courtroom etiquette, software operation and work practices.
